

# Python Loop Pattern Programming

## Print the blow pattern

```
*****
*****
*****
*****
*****
```

```
In [ ]: a = 1
while a<=5:    # row
    b = 1
    while b<=5:    # column
        print("*",end='')
        b += 1
    a += 1
    print()
```

```
*****
*****
*****
*****
*****
```

```
In [4]: row = int(input("Enter a Row Number :"))
column = int(input("Enter a column Number :"))
symbol = input("Enter a symbol Number :")
```

```
a = 1
while a<=row:    # row
    b = 1
    while b<=column:    # column
        print(symbol,end='')
        b += 1
    a += 1
    print()
```
